

I am an avid listener and supporter of the K-Love radio station. It has been brought to my attention that a proposal has come up that could ultimately take them off the air.

I believe that K-Love is very important to a lot of communities here in the United States. It would be a great tragedy in my opinion if they were taken off the air. They are very encouraging and uplifting. It is one of the few and diminishing ways that the word of the Lord Jesus Christ is taken to the families of America. There are so very few radio stations out there that have a family oriented broadcast. Most stations are not fit to listen to, due to foul language and sexual remarks. I have seen over and over again the government take something that glorifies God and remove it because it may offend someone. I am offended that it was removed. Who is going to care if I am offended? It seems everyone has the right to be offended unless you are a Christian.

I say NO to the LPFM stations and anything else that will remove another one of God's tools from our country. The United States is the greatest country in the world because of its Christian founding. It would be devastating to see it fall because of man's pride and arrogance.

I will be praying that you will make the right decision.

God Bless!!

John Dayton
